

## “How To Make A Kumfort For Kids Quilt”

1. Take a Kumfort Kit home with you.
2. Check the bag for its contents (quilt top, batting, backing and label)
3. Attach label to back.
4. On a flat surface lay out batting, backing right side up, quilt top right side down.  
Fasten securely all around with pins.
5. Either round the corners or leave them square.
6. Sew around the Kumfort leaving an 8-10” opening.
7. Remove pins and trim off extra fabric.
8. Slip your hand inside the opening between the top and the backing. Now ease the Kumfort right side out.
9. Straighten the seams and corners. Fold in the 8-10” area left open while sewing.  
Pin opening closed. Sew around entire Kumfort  $\frac{1}{4}$  -  $\frac{1}{2}$ ” from the edge.
10. To finish Kumfort either machine quilt or tie with embroidery floss about every 4-5 inches.
11. Finished quilt size is approximately 42” square, but any size is acceptable.
