

Tissue Cover

Cut a rectangle that measure $5\frac{1}{2}$ " x $6\frac{1}{2}$ " from the fabric for the outside of your tissue cover. Cut a second rectangle of fabric measuring $5\frac{1}{2}$ " x $7\frac{1}{2}$ " for the lining fabric. This fabric is also seen on the edges of the opening, so choose a fabric that co-ordinates well with your outside cover fabric. Place the fabrics right side together and sew a $\frac{1}{4}$ " seam down both $5\frac{1}{2}$ " sides. As the lining fabric is larger than the outside over fabric, the piece that you have sewn won't sit flat – THAT'S OKAY!! It means you're doing it right!

Turn the fabric piece right side out, and press, so that you have approximately $\frac{1}{4}$ " of the lining fabric showing at the sides.

Fold the edges towards the center (you should be looking at the lining fabric). Stitch a seam along both short ends.

Turn your cover inside out. Take the plastic wrapper off your travel tissues and slip them inside your beautiful new tissue cover!
